The Castle Heights team arrived this morning and is in fine fettle for a stiff battle. They appear to be a good, husky bunch and are confident of copping the battle from Normal. The game promises to be a hard-fought one all the way, as both teams are in good shape and primed to give no more ground than can be helped.

Coach Childerson, of Normal, took his team through a light signal drill yesterday afternoon, and all of the men are ready to take on the Castle Heighters.

There are a number of other good games to be played today, among which are the Camp Gordon and Camp Hancock struggle at Atlanta.

### MAY ASK BAN TO **HEAD SEMIPROS**

Johnson Right Man for Place, Say Officials.

CLEVELAND, Nov. 2.—A prominent baseball anan-perhaps President Ban Johnson of the American league—will be sought to head the proposed semi-professional league of the National Baseball Pederation, for the duration of the war, which will replace the professional game. Directors of the federation are business men who can not conveniently spars the lime to devote to the successful operation of the plans. Clayton Townes, member of the executive board and organizer of the federation, will suggest to the board that measures be taken to place the proposal before Mr. Johnson in the hope of securing his co-operation. It such efforts fail, the aid of Clark Griffith, who purchased more than \$100.00 worth of baseball equipment for soldiers and sallors probably will be sought.

The federation expects to pay a salary to the man who accepts the position.

There is to be no personal profit.

ary to the man who accepts the position.

There is to be no personal profit however, from the new teague. All above expenses will go to the war athlete activities fund.

"Our league is intended to fill the gap caused by the cessation of professional baseball, which will come back more popular than ever after the war," said Mr. Townes.

"What would prevent Mr. Johnson running the semipro and of the federation? As we have peanned, games are to be played Saturdays and Sundays on three American league parks. Chicage, Cleveland and Detroit, giving those club owners enough to pay overhead expenses on free pants.

"And what would be more in keeping with such a plan than that the head of the American league lend his influence to see that the league is run right?"

At the end of the season of 1908 Murray, discoverer of Grant, was displaced, in former Cinclinnati and Brookiny player, now in the battle zone, in a letter which arpears in the Cinclinnati Times-Star, "Take it from me, there will have to be a double series, for the public will demand it, the army and havy will be playing at home. There will be provided to the released by Uncle Sam in time to get back in the game.

"That means that many of the beat ball players of the two leagues will be playing at home. There will be considerable attention given the army and many ball sames when the garms are being arranged we'll be playing at home. There will be considerable attention given the army and navy ball sames when the army and havy ball sames wh

the soldiers and saliors will think so.

"And that club will have to be let in on the world's series, if it asks the chance, as it surely will. I only shope I'll show enough class to be counted in on the doings, for those games will be something a fellow will think about and talk about for the rest of his life."

## **HOW STEEL LEAGUE PAYS ITS PLAYERS**

Made to Help Pay His Way by What He Draws at Gate.

A Pittsburgh writer professes to explain how one steel company in that city makes it worth while for ball players to work in its plant, and he takes the case of Pitcher Wilbur Cooper as a sample. This is how it is arranged, so the statement says:

Cooper was guaranteed a salary with Alleghenv Steel at \$300 a month during the baseball season only. His salary is so much a week, and the difference is made up by the management of the ball club.

In order to draw down this money. Cooper must work eight hours a day and be on deck every morning. He is really pald for what he does, not what he knows about baseball. His straight salary will total about \$175 a month, and to this the baseball management adds \$125, making good its guarantee of \$300.

Cooper is one of the stars of the National league He is a big device.

of \$300.

Cooper is one of the stars of the National league. He is a big drawing card any time he enters the box. The Steelers' ball club can take in at the gate enough money to pay Cooper the salary difference at one game and the result is release.

rest is velvet.

That's the secret. It's very simple, and incidentally good business on the part of the men who handle the affairs of the Allegheny Steel company ball club.

the united war work campaign in Memphis, Shelby county and West Tennes All hopes of Memphlans seeing Pal Meore, the real bantam champion, in action at the Phoenix arena before departing for London to fight for the King's trophy have been knocked into a cocked hat, owing to the fact that Pal, along- with the other four ring stars to compete for the trophy, are now on their way to a port of embarkation. It is quite likely that they will be on the briny this time next week. Memphlans had been hoping that Pal would be brought here for a bout before leaving for England, but as the fighters must be in London by Dec. 11, it was decided by those in charge of the American end of the proposition to start the boys over as seen as passible in order that they may get accilimated and get on familiar terms with terra firma again.
